

HOW TO USE THESE RESOURCES

This resource consolidates The Angeletti Group's core processes and deliverables in a centralized format. Each section follows a consistent structure, presenting sectors in the following order across chapters: arts and culture, community building, education, and healthcare. While similarities may exist across sectors, differences in terminology are deliberate and reflective of nuanced distinctions important to our clients and potential clients.

While it undergoes continuous updates, we are counting on our TAG team members to suggest revisions, identify errors, note omissions, and help to maintain its relevance as our foremost operational guide.
